2. The liability of the carrier for loss resulting from delay is limited to an amount agreed between the parties. If no maximum amount has been agreed, the liability of the carrier is limited to 10% of the agreed carriage charges.

Clarification

Article 5 of these terms and conditions stipulates circumstances under which the liability of the carrier is mitigated in relation to its liability as laid down in Article 8:1095 of the Dutch Civil Code.

According to Article 8:1102 of the Dutch Civil Code, this mitigation of liability is void unless Article 5 of these terms and conditions is laid down in a separate document, which includes the contract of carriage.

The consignment note is ideal for this purpose.

It is advised to include the verbatim text of Article 5, together with a reference clause, on the consignment note.

Article 6

Obligations on the part of the sender (the client).

1. The sender is obliged to promptly provide the carrier with:

 - d. to perform the work assigned to the carrier in accordance with Article 3 of these terms and conditions.
3. The sender is obliged to pay:
 - a. the agreed carriage fee;
 - b. the additional costs referred to in Article 4 Paragraph 9 of these terms and conditions;
 - c. the costs resulting from further instructions not agreed in advance, unless such instructions ensue from circumstances that can be attributed to the carrier;
 - d. the cost of waiting hours caused by the sender and/or consignee.

Article 7

Liability of the sender

1. If the sender does not fulfil its obligations as referred to in Article 6 of these terms and conditions, the carrier is entitled to terminate the agreement after having provided the sender with a deadline, either in writing or verbally, which deadline is subsequently not met. If setting such a deadline would mean that the business operations of the carrier would be unreasonably affected, then the carrier may terminate the contract without granting a deadline as mentioned.
After termination, the carrier is released from its carriage obligation under this agreement, without prejudice to its right to compensation of the loss as described in Article 6 of these terms and conditions.
2. The sender is liable for the loss incurred by the carrier due to a failure by the sender to fulfil the obligations referred to in Article 6.
3. The sender indemnifies the carrier against all third-party claims for loss caused by the transport of persons, goods, including road infrastructure and/or the environment, if said loss results from a failure on the part of the sender to fulfil its obligations referred to in Article 6 of these terms and conditions.
4. If the carrier is not provided with an instruction for the loading or unloading of the goods to be transported, loading and unloading will be carried out under the responsibility and for the risk and account of the sender, also if assistance is provided by the carrier and/or its subordinates.
5. The sender is liable for the extra costs/loss resulting from any change or cancellation of the carriage instruction at the request of the sender, in particular with regard to the costs of applying for new permits if, as a result, permits applied for earlier have expired.

Article 8

Payment conditions

1. All amounts owed by the carrier and the sender, under any heading whatsoever, will be paid within the agreed term, whereby if no term is agreed, a term of 14 days after the invoice date will apply.

If the sender or the carrier fails to pay any amount you within the agreed term or, if no term is set, within 14 days of the invoice date, the party in default will pay statutory interest pursuant to Article 6:119 of the Dutch Civil Code, calculated from the due date until the date of actual payment.
3. The carrier and the sender have the right to recover all necessary extrajudicial and judicial costs incurred to collect the amounts as stated in Paragraph 1. The extrajudicial collection expenses are due as from the time that the sender or the carrier is in default and the claim has been referred to a third party for collection.
4. The freight, the costs due owing to other reasons relating to the carriage and further expenses attached to the goods are due also if the goods are not delivered at its destination or only partly, damaged or delayed.
5. An appeal to set off claims to pay freight, costs due owing to other reasons relating to the carriage and further expenses attached to the goods against claims for any other reason is not permitted.
6. All amounts referred to in Paragraph 1 of this article are, in deviation of Paragraph 5 of this article, in any event immediately payable if:

 2. significantly defaults on the fulfilment of its obligations;

Article 9

Security

1. The carrier has a right of lien on goods and documents in his possession in connection with the contract of carriage towards any person who demands delivery of same. This right does not accrue to the carrier if, at the time of receipt of the goods for carriage, it had reason to doubt the right of the sender to make the goods available for carriage.
2. The right of lien applies likewise to charges attached to the goods by way of COD as well as to the COD fee to which he is entitled, for which he is not obliged to accept security.
3. The carrier may also exercise the right of lien against the sender for reason of what is still owed to it with respect to previous contracts of carriage.
4. Likewise, the carrier may exercise the right of lien against the consignee who in this capacity became a party to previous contracts of carriage for reason of what is still owed to it with respect to these contracts.
5. If when settling the invoice, a dispute arises over the amount due or if there is a need for a calculation to be made for the determination of what is due that cannot be made quickly, then the party demanding delivery is

obliged to pay forthwith the part which the parties agree is due and to furnish security for the part in dispute or for the part for which the amount has not yet been established.

6. All the goods, documents and monies in possession of the carrier in connection with the contract of carriage serve as pledge for all claims which it has against the sender.
7. Except for the cases where the sender has been declared bankrupt, has been granted a moratorium of payments or in has been declared subject to a debt reorganisation scheme for natural persons, the carrier shall never be entitled to sell the pledged objects without permission from the Court in accordance with Section 3:248 Paragraph 2 of the Dutch Civil Code.

Article 10

Arbitration

Explanatory note

As from 1 September 2011, cases submitted for arbitration to the Arbitration Institute for Logistics will be referred to the arbitration body, TAMARA.

TAMARA specialises in arbitration in the areas of transport, storage, logistics, international trade, and in the shipping and shipbuilding industry. In order to ensure that the interests of road transport and logistics services are safeguarded, Stichting Vervoeradres sits on the Board of TAMARA.

Do you wish to avail of the services of TAMARA? If yes, you will need to include the following arbitration clause in your contract of carriage:

'Any dispute arising in connection with this Agreement between the Parties established in the Netherlands shall be settled in compliance with the CMR Convention and in accordance with the regulations of the TAMARA foundation based in Rotterdam.'

Stichting Vervoeradres facilitates the logistics chain with widely accepted bilateral general terms and conditions (such as the General Conditions of Transport, AVC). Key to this is the principle of a well-balanced distribution of risks, sectoral acceptance and transparency regarding the legal status both of the sender (shipper), the logistics service provider and the consignee. The Foundation maintains contacts on an international level for purposes of enhancing the legal status of the various parties in the logistics chain (as formulated in the CMR Convention).
